

Cancer of the Nose.
In 1875 a sore appeared on my nose, and grew rapidly. As my father had cancer, and my husband died of it, I became alarmed, and consulted my physician. His treatment did me no good, and the sore grew larger and more in every way, until I had concluded that I was to die from its effects. I was persuaded to take S. S. S., and a few bottles cured me. This was after all the doctors and other medicines had failed. I have had no return of the cancer.

PROHIBITION TALK.

Exciting Debate in the Conference at Pottsville.

THE NEW JERSEY CONFERENCE.

The Proposition to Increase Lay Representation Decried at Pottsville—Partisan Clause of Temperance Resolutions Stricken Out.

POTTSVILLE, Pa., March 20.—The feature of the proceedings of the conference was the long and animated debate of the temperance resolution, introduced by the conference temperance committee. After a lengthy preamble regarding the struggle for prohibition in this state last June, the committee commended the work of the various temperance organizations and especially the Christian Temperance union, for their noble work in the fight. The position of the church on the prohibition question is reiterated, and the conference is pledged to combat the evil until victory is secured. Following this general expression of the sentiment of the conference on the subject of prohibition was this concluding sentence:

That it is inconsistent for a Christian to support any party that favors license.

An Exciting Debate.

The report was presented by J. S. Lurie, chairman of the temperance committee, and immediately there were a dozen preachers who wanted the floor. An exciting debate followed. G. E. Adamson opposed the resolution in a stirring address, saying that its passage would attach a stigma to any Republican who supported such a man as Judge White, of Allegheny, or Judge Gordon, two staunch temperance men who were in the state, and who have done more practical work in the temperance reform than any preacher in the conference.

Presiding Elder Paxson spoke against the resolution. He said he was a temperance man and voted for prohibition before some of the men who now wished to control his conscience were born. At the election last June 200,000 votes were polled for prohibition. Of this number only 30,000 belonged to the third party. About 10 per cent were Democrats and the balance, or about 200,000 were Republicans. This resolution says that there were 200,000 Republicans who were not Christians simply because they did not vote the third party ticket.

George Cummings, William Swindells, A. J. Kynett, and others followed in spirited speech for the resolution. The tenor of their remarks was that the temperance question overshadowed all others and every one who favored it should come out from among the old parties and make themselves known.

Mr. Adamson moved to amend the report by striking out the offensive clause and the resolution was adopted.

The remainder of the business was simply routine.

NEW JERSEY CONFERENCE.
The Proposed Increase in Lay Representation Decried.

MILLVILLE, N. J., March 20.—Rev. Philip Cline conducted the devotional services in the Methodist Episcopal conference. The report of the board of stewards was accepted and filed. A resolution was adopted petitioning the New Jersey legislature to enact the bill prepared by the church temperance commission, which permits a majority vote of a county to prohibit licensing the traffic in intoxicating liquors.

A lengthy discussion ensued on the report of the lay and ministerial representation, was discussed at length and the proposition finally defeated by a vote of 117 to 13.

Baltimore Conference.
BALTIMORE, March 20.—The Baltimore conference of the Methodist Episcopal church, south, continued its session. Rev. James E. Armstrong, Front Royal, Va., conducted the religious exercises. The names of Rev. J. F. Briggs, of Washington, Va., were referred to the committee on conference relations. Rev. Mr. Waucho, presiding elder of the Rockingham district, said Mr. Briggs was deceased in body and mind and that he would not in all probability be able to do effective work during the coming year. A number of clergymen made statements of the work in their charges and their characters were praised.

Baltimore Belt Railroad.
ANNAPOLIS, Md., March 20.—The bill providing for the construction of the Baltimore Belt railroad passed the senate last night and came to the governor. The Baltimore Belt railroad is but another name for the Baltimore and Ohio. It proposes to tunnel the city under Howard street from a point near Camden station to the northern city limits and run thence along the outside of the city eastward to Bay View, whence it will connect with the Philadelphia division of the Baltimore and Ohio. This will obviate the tedious transfer across the harbor by boat of the freight and passenger trains of the Baltimore and Ohio between Locust Point and Bay View.

Mr. Randall Much Improved.
WASHINGTON, March 20.—Ex-Governor Curtin, who has been here for several days, called on Representative Randall, and says he found him better than he has been for a long time past. Mr. Randall was able to talk with the ex-governor, and seemed to be in good spirits. His mind is as active as ever, and he follows events in congress and in public life generally with his old time interest.

Another New York Official Arrested.
NEW YORK, March 20.—George Mindeman was arrested by a detective attached to the district attorney's office on an indictment charging him with extortion while employed in the sheriff's office.

To See the Newark Launched.
WASHINGTON, March 20.—A number of naval officers, the members of the committee on naval affairs, and others to the number of about 100 left here this morning at 7:30 to witness the launch of the Newark at Philadelphia. Neither the president nor Secretary Trevelyan will be present.

Fire in Milford, Mass.
MILFORD, Mass., March 20.—Fire starting in Sweeney's meat market, 73 Main street, spread to the surrounding buildings and destroyed nearly the whole of the Rattery. Union and Mowrey brick buildings were destroyed. Distributed among a number of small shop keepers.

ALGERIA ON PENSIONS.

He Advises Veterans at Milwaukee to Take What They Can Get.

MILWAUKEE, March 20.—The annual department encampment of the Grand Army of the Republic convened in this city. The morning session was wholly taken up with business. After the credentials of delegates were presented and approved and organization was effected, Department Commander Ferguson read his annual address and Col. Gray gave his report as assistant adjutant general. Both were referred to special committees.

At the afternoon session Commander-in-Chief Gen. Alger made a speech. While on a visit to Washington a short time ago he learned that congressmen and senators were opposed to the service pension bill, which will call for \$100,000,000 additional appropriation each year. The commander-in-chief said he was confident would be passed within a few weeks. He favored the veterans taking what they could get instead of asking for something that was impossible.

Kincaid Posing Post.
WASHINGTON, March 20.—Ex-Judge Kincaid, who is in jail now awaiting his trial for shooting ex-Congressman Taubee, has changed so much during the few days of his confinement that the friends who have called on him hardly recognize him. He has suffered a great deal within the last few days, and is now in a very bad condition. He is failing fast, and his physicians fear he will not live until his trial. He is most kindly treated at jail, and is allowed the freedom of the halls, and is rarely confined to his cell.

No Division Encampment.
HARRISBURG, March 20.—There will be no division encampment of the Pennsylvania national guard this year, because the funds appropriated for military purposes are insufficient to warrant such an encampment. The three brigades will hold separate encampments at accessible points which will cost the state much less than the expense of massing the division would entail. One hundred thousand dollars of the appropriation to the national guard have been expended in the purchase of the new 16 caliber rifles.

Making Voting Compulsory.
ANNAPOLIS, Md., March 20.—Senator Towson introduced a bill making voting compulsory in this state. It requires the judges in each voting precinct of the state at the close of the polls at each election to make out a list of the persons voting at that election, this list to be certified to the return judge. The citizens on the list shall be fined \$5 each. An exemption of \$100 is allowed before the fine can be collected.

A Big Purchase of Timber.
JOHNSTOWN, Pa., March 20.—A syndicate of Pittsburgh capitalists has purchased the timber on 5,000 acres near this place, the price paid being \$250,000. It is the intention of the purchasers to erect logging railroads through the property, to construct saw mills and put the lumber on the market this summer. It is estimated that 40,000,000 feet of lumber will be produced.

Hospital Instead of Hotel.
BRADDOCK, Pa., March 20.—It is now asserted, but not authoritatively, that the firm of Carnegie Bros. & Co. has abandoned the idea of erecting a hotel here for the benefit of the young men employed in the works and will build a hospital instead. The firm now pay \$100,000 annually for the care of their fireproof injured at the West Penn hospital.

A Canadian Embassador.
MONTREAL, March 20.—Alexander Shaw, secretary and treasurer of the Canada-Jute company, was requested to leave the office of erecting a hotel here for the benefit of the young men employed in the works and will build a hospital instead. The firm now pay \$100,000 annually for the care of their fireproof injured at the West Penn hospital.

King's Case Postponed.
PHILADELPHIA, March 20.—Profect King was arraigned before Judge Arnold and the trial postponed until Monday next.

THE LAKE SHORE DISASTER.
The Jury Commenced the Company, the conductor and the brakeman.

BUFFALO, March 20.—The testimony in the Lake Shore accident investigation was finished and after five hours deliberation the jury returned a verdict censuring the company for not enforcing its rules and stating that Superintendent Couch, in the opinion of the jury, knew that trains were run in an unsafe condition.

New Jersey Legislature.
TRENTON, March 20.—In the house the Kelly Saturday half holiday bill was passed, as was also Mr. McCran's bill preventing the employment of women or minors for more than ten hours each day. Other bills passed were those amending the redistricting bill of last year so as to enlarge the Seventh ward of Newark; repealing the act enabling township committees in township of less than 1,200 voters to grant licenses.

Bills passed by the senate were as follows: Providing for the purchase and display of United States flags on public school buildings; providing for a free scholarship to the State Agricultural college to one student from each assembly district; and providing that dogs may be killed when found running at large without a collar on which is engraved the owner's name and a registered number.

Washington, March 20.—The silver bill is now under consideration by the house committee on coinage, weights and measures. During the week it is the intention of the chairman to have a special meeting when final action will be taken. The bill, as it will be reported to the house, is probably on Monday, will practically provide unlimited free coinage.

Saved from the Gallows.
BALTIMORE, March 20.—Judges Bond and Morris of the United States circuit court, granted writs of habeas corpus in the cases of George S. Key, Henry Jones and Edward Smith, the three negroes convicted of murder at Navassa island and heretofore sentenced to be hanged on March 28. The court also grants a stay of execution until the United States supreme court takes action.

WILKINS, W. Va., March 20.—The punch tumbler smotherers employed at the Central glass works are on a strike for piece work instead of being paid by the day or week. The men are not in the employ of the Central Glass company, but are hired by William Martin, a sub-contractor, upon that class of goods.

During the last year Signor Crispi authorized payments to the amount of nearly half a million francs to Italian newspapers friendly to the government and himself personally. Of this sum 225,000 francs went to newspapers in Rome, 80,000 francs to the Neapolitan press, 60,000 francs to newspapers at Milan, 50,000 francs to ministerial organs at Turin, 25,000 to Venice and 20,000 francs to Florence. The pony is the horse of hardships, says a horseman in an exchange, and one that has sprung from some poor country where he has ever been the child of neglect, he and all the predecessors of his race. In a rich country like the horse regions of Kentucky, for instance, his pony characteristics would invariably run out in the course of a few generations. He is not a distinct strain, as many would seem to suppose. He doubtless sprang originally from as good a strain of horses as the world knew of at the time, and his present reduced size and characteristic toughness have resulted unquestionably from local circumstances.
